# CONDITION OF THE MARKETS

Money Stringency Still Holds Wheat Down and It Scores a Further Decline.

Corn Very Strong on Account of the Scarcity of the Supply-Oats Also a Little Higher and Hog Products Firmer.

MONEY, STOCKS AND BONDS.

The Market Opens and Closes Strong, but Is Very Weak in the Middle. NEW YORK, Dec. 8 .- Money on call was tight, ranging from 6 to 9 per cent., the last loan being made at 6 per cent., closing

offered at 6 per cent. Prime mercantile paper, 712@10 per cent. Sterling exchange active and weak at \$4.78 for sixty-day bills and \$4.83 for de-

The total sales of stocks to-day were 438,568 shares, including the following: Atchison, 30,605; Delaware, Lackawanna & Western, 22,930; Lake Shore, 7,150; Louisville & Nashvile, 2,441; Missouri Pacific, 25,210; Northwestern, 6,240; New York Central, 3,285; Northern Pacific, 5,179; Northern

Pacific preferred, 20,806; Reading, 39,700; Richmond & West Point, 13,713; St. Paul, 41,096; Texas Pacific, 4,650; Union Pacific, 38,500; Western Union, 8,641. The stock market to-day was again very active and irregular, but on the whole weak, and while the movements show no weak, and while the movements show no uniformity the majority of the final changes are losses. The market at the opening was decidedly strong, and the temper all day was such as to show that with any real inducement to buy, coupled with a reasonable assurance that the money to carry them will be forthcoming, that there would be a good and extensive demand for all good stocks. The offer of the Secretary of the Treasury to take \$5,000,000 ry of the freasury to take \$5,000 of the fou -per cents. was a most influential factor in the situation this morning. The hint that the \$1,000,000 of fractiona currency might be made available also had a decidedly good effect. London prices were higher, and altogether the outlook was far different from that of Saturday afternoon, and there was a rush to cover shorts in the early dealings which, on comparatively limited offerings, soon brought list up above Saturday's price per cent., Rock to Missouri Pacific and grangers generally leading the improvement. The prospective relief to the

monetary situation, however, was of no immediate avail and money on call became very dear, finally reaching a premium of 14 per cent. per diem for use in addition to the legal interest. At the high prices also there appeared a disposition to liquidate long accounts, and the "bears" immediately became aggressive and hammered the list all along the line. All the leading stocks soon had lost all of the early improvement, and as the pressure was kept up without interruption the losses from the highest figures extended to 512 per cent. in Missouri Pacific. The downward movement was accelerated by the announcement of lers' finished goods, per gal, \$1.14.

the failure of a large hat house up town. On the Produce Exchange to-day the butwhile the old rumor about a United States Cabinet officer being in financial straits was rehashed and made to do duty again. The fear of the continued announcement of failures in the mercantile community has become one of the greatest straining forces in the stock market, and every fresh one serves for the time to depress stocks in general, although it may not be known that the firm

is at all interested in securities. The weakness of the Gould stocks was pointed out,
while the attack upon Reading, which
forced its price off to 2614, was made the
occasion of a revival of the old story about
the liquidation of the holdings of the pool.
There was undoubtedly a great deal of
liquidation of long accounts, but there is
no evidence to show that they are anything
but those of the professional traders on the but those of the professional traders on the street. A fresh issue of \$1,000,000 clearinghouse certificates was also used against the market. The tightness in the money market passed away toward delivery hour, and it became known that \$1,000,000 gold had been ordered from London which again set the "shorts" to covering, and prices moved up rapidly in some stocks in the final dealings. The improvement, however, was insufficient to wipe out the losses of the day except in a few stocks. Among these latter the stocks which led the early advance were most conspicuous, and some of them closed with a material gain on Saturday's price. The market was active and strong at the close, but most stocks are left below Saturday's figures. The advances of note comprise Union Pacific, 134; Rock Island and Northern Pacific preferred, 118 per cent. each, and Burlington & Quincy, 1 per cent., while the losses include Sugar, 312;

Railroad bonds were more active than usual of late, and were weak throughout the entire day. Out of a total day's business of \$1,744,000, Atchison incomes furnished \$222,000 and Kansas & Texas fours \$107,000. The active issues were all conspicuously weak, and there was no recovery as in stocks, so that almost all bonds are left at the lowest point of the day. Erie seconds lost 2, at 93; Kansas & Texas seconds 312, at 34; Reading tours 2, at 7512; the firsts 234, at 5014; the seconds 4, at 30; the thirds 314, at 2814, and Wabash firsts 2,

# TRADING AT CHICAGO.

Wheat Continues to Decline but Corn and

Oats Are Stronger. CHICAGO, Des. 8.-Wheat bordered on the lowest price it has seen since the financial outlock arst began to cause serious alarm, May celling down to 9634@967sc. It closed at 973sc, or sec lower than on Saturday. Corn was well held, and made a slight advance, and the oats deal was in accord with the other feeding material. Provisions started strong and closed steady at a slight improvement on Saturday's final quotations. The wreckers of the stock market are again at work, and have once more manipulated a corner on the loanable funds in New York. Wheat started strong in sympathy with an apparent recovery in the New York stock market, and the expectation of quite a small increase if not an actual decrease in the visible supply. The May future, which on Saturday closed at 981sc, opened with buyers at 981sc, and from that up to 985sc, and sales were made a second later at 9834c. In the course of the first half hour's business prices had receded to 98c. In a half hour thereafter it was 9712c, and then again by 11 o'clock it had recovered 12c of the latter decline. The cause of the weakness which so quickly superseded the firmness at the opening was due to the stock market having first low, 26@27c. Tallow strong: city (\$2 for made a similar change of front. The announcement was made from New York while the decline in the wheat market rewhile the decline in the wheat market referred to was in progress that the firm of Robert Cushman & Co., importers of hitters' materials, had failed with liabilities of \$1,000,000. Receipts at Minneapolis and Duluth were received also at this stage of the proceedings, and they were not indicative of any falling off in the movement. The New York clearances also came to hand at the same inconcerne moment for the

been shipped from there on Saturday, this added a little to the bearish sentiment of the moment. The returns which came to hand first from the points which are included in the visible supply gave threatening indications of upsetting the earlier expectations of only a small increase. In fact there were | 914c. only a small increase. In fact there were no rumors of an encouraging nature to the bull side. Money was quoted at 25 per cent. in New York on stock collaterals, and the wheat speculators here acted as if under the impression that a contract for the delivery of wheat in May was subject to a similar tax. The market was well held down by liberal sales by houses with Northwestern connections. New York sent heavy selling orders to this market and the local "bears," getting the market on the ground, pounded getting the market on the ground, pounded it at every sickly attempt it made to rise. The latter half of the session was a contin-The latter half of the session was a continuation of the downward tendency. The December delivery widened out to a difference of 9½c under May at one period, and the two deliveries closed 9c apart. May declined to 96½c and December to 89¼c. At the close May had recovered to 97¾sc, with sellers as the last bell tapped. The corn market was firm first and strong later on account of the visible supply statement showing such meagre quantities on hand. The price of May started at an improvement of 1¼c over Saturday's closing prices, but declined ¾sc, in sympathy with the weakness in wheat, until it firmed up again from the cause already mentioned. There was an advance in May to 54¾sc, after selling down to 535sc, and it closed at 54½sc, or an improvement of ¼c since Saturday. Oats were slow and unsettled, being firmer and higher early in sympathy with other markets, weakened towards the close, but finished steady at almost outside figures and a slight advance over Saturday. The pork market attracted considerable speculative attention, and trading was quite active at an irregular range of prices. considerable speculative attention, and trading was quite active at an irregular range of prices. At the opening a few sales were made at about the closing figures of Saturday, but prices advanced 15@20c, settled back again 12½@15c and closed rather tame at inside figures. Lard trading was moderately active. Early prices were were advanced .02½c. Later the feeling was easier, and prices receded .05@.07½c. The market closed steady at about inside figures. In short-ribs a fairly active trade was reported, and the fluctuations in prices were slight. Opening sales were made at .02½@.05c advance, but prices receded and the market closed rather steady. The leading futures ranged as follows: The leading futures ranged as follows:

### GRAIN AT HOME AND ABROAD.

Figures Showing the Quantity in Sight in the United States and Canada.

CHICAGO, Dec. 8.—The visible supply of grain, as compiled by the Secretary of the Chicago Board of Trade, is as follows: Wheat, 24,570,000 bu, an increase of 41,000 bu; corn, 2,278,000 bu, a decrease of 866,000 bu; oats, 3,320,000 bu, a decrease of 39,000 bu; rye, 494,000 bu, a decrease of 85,000 bu; barley, 4,608,000 bu, a decrease of 142,000 bu. The New York Produce Exchange statement of the visible supply on Saturday, Dec. 6, was as follows: Wheat, 24,569,834 bu, an increase of 42,008 bu; corn, 2,278,385 bu, a decrease of 866,109 bu; cats, 3,309,875 bu. a decrease of 49,427 bu; rye, 493,854 bu, a decrease of 84,575 bu; barley, 4,608,193 bu, a decrease of 142,275 bu.

The Foreign Grain Market.

LONDON, Dec. 8.-The Mark Lane Express, in its weekly review of the British grain trade, says: Although the supplies of English wheat are limited, prices are barely supported. Foreign wheats are rather stronger. Corn is firmly held. American has advanced 6d and LaPlatte 3d. Barlevs have dropped 6d. At to-day's market English wheats were neglected, except fine whites, which were steady at 37s 6d. Foreign wheats were firm. California sold at 37s 6d, Bombay at 37s and Australian at 38s. Malting barley was stronger. Flour was steady. Rye and corn were firm.

Dry Goods. NEW YORK, Dec. 8. - The dry-goods market presented no new feature. The was a good volame of mail orders, but selections were light. The situation is a steady one, while awaiting a more settled state of the financial market. Some staples are accumulating under the circumstaces, but not out of proportion to conservative wants of trade. More activity is likely to be reached before the end of the month, but neither buyers nor sellers are anxious at present. The market is in good shape and the trade is being well sup-plied with goods from the active business of No-

# Metals.

NEW YORK, Dec. 8.—Pig-iron nominal. Copper nominal. Lead heavy; domestic, 4.3712c. Tin quiet and firm; city steady; Straits, 21.60c. ST. LOUIS, Dec. 8.-Lead nominal at 4.25c.

ST. LOUIS, Dec. 8 .- Wool-Receipts, 1,986 pounds. There is a little more inquiry for worsted wools, with some large sales; also, of Texas and Territory.

@3.50; all grades, \$3@3.90. Sheep-Receipts, 1,000; shipments, none. The market was steady and unchanged.

INDIANAPOLIS MARKETS. Trade Brisk, Prices Firm, with an Easler Money Market.

INDIANAPOLIS, Dec. 8.—A genuine winter temperature gave a good deal of snap to trade to-day, and with this prices on most lines carried a firm tone. A number of buyers came in on the morning trains and were quite liberal in their purchases. The dry-goods men to-day especially had a good trade. Heavy goods have been moving much more briskly the last few days, and quite a marked reduction in stock at the wholesale houses is reported. Grocers report their business very satisfactory and collections easier. In prices there were no important changes. Provisions are moving freely in a jobbing way at unchanged prices. There is nothing good to say of the flour market. In produce circles there is a good deal of activity. Apples are selling all the way from \$3.50 to \$8 per barrel. Irish pota-toes firm at \$1.18 per bushel from car. East poultry is a little off, and this market is not as strong as last week. The weaknessmay be but temporary Other markets are without feature.

The local market was dull to-day, prices ruling easier on all cereals. Wheat, No. 2 red, dropped back to 94c, and the several grades of corn which are quoted were off 120 to 1c. Track bids to-day ruled as follows: Wheat-No. 2 red, 94c; No. 3 red, 90c; rejected, 80@87c: unmerchantable, 65@70c. Corn-No. 1 white, 50c; No. 2 white, 5012c; white mixed, 49c; No. 3 white, 49c; No. 2 yellow, 50c; No. 3 yellow, 49c; No. 2 mixed, 49c; No. 3 mixed, 46c; sound ear, 47c. Oats-No. 2 white, 48c; No. 3 white, 46c; No. 2 mixed, 4612c; rejected, 45c. Bran-Receipts light. Local dealers are Hay-Timothy, choice, \$10.50; No. 1, \$10; o. 2, \$7.50; No. 1 prairie, \$7; No. 2 prairie, \$5; mixed hay, \$6.

Poultry -Hens, 512c \$ 15; young chick ens, c512 \$ tb; cocks, 3c \$ tb; turkeys, choice fat hens, 712c: choice young turkeys. 712c; old toms, 6c; poor, small turkeys, 4@6c; ducks, fat, 512c; geese, choice full-feathered, \$4.80@5.40 \$\text{ doz.} Eggs-Shippers paying 22c; selling from store at 23@24c. Do Cows Need Exercise? National Stockman.

In winter they need little; some dairymen tie up their cows at the commencement of cold weather and keep them in the
stable till spring. In our own practice the
cows are turned out into the yard in good
weather and stay out till feeding time at
night. We have never noticed that they

is not an experiment; it has been tested. and its enormous sale is due solely to its merit. It is made on honor, and good housekeepers say SANTA CLAUS SOAP
"is a necessity." Don't let your dealer
give you some other kind, if he hasn't
Santa Claus, but insist on having only SANTA CLAUS SOAP. ' N. K. FAIRBANK & CO., Mfrs., Chicago, Ill.

Notice--Street Assessment--Kansas Street

OFFICE OF CITY CLERK, INDIANAPOLIS, Ind., Dec. 8, 1890. Notice—Street Assessment—Mississippi Street.

OFFICE OF CITY CLERK, INDIANAPOLIS, Ind., Dec. S. 1890. Notice is hereby given that on the 27th day of December, 1890, at 10 b'clock a. m., in the office of the City Clerk, the committee on Streets and Alleys of the Common Council will meet to consider the final estimate submitted by the City Civil Engineer to the Common Council, for the improvement of Mississippi street, from Washington street to Ohio street, in the city of Indianapolis, pursuant to special ordinance No. 82, 1890.

All interested parties are hereby notified to be present and make objections thereto, if any they have.

For the Common Council and Board of Aldermen.

E. B. SWIFT, City Clerk. take any extra steps just for the sake of exercise; if the yard is well littered they lie down most of the time. The barn-yard is a warm one, sheltered from the north and

west winds, and in stormy weather they are not allowed out of doors at all, but are watered in the stable and contented. We have tried feeding beef cattle under

the exercise and non-exercise systems, but saw no advantage of one plan over the other. The cattle would lie down most of the time, whether in stable or yard. In summer, while on pasture, the cows walk very little except for the purpose of grazing, and as soon as they get their fill of grass they lie down or stand in the shade chewing their cuds. The conclusion seems to be a just one, therefore, that cows in winter can be kept constantly stabled without injury to their health or yield, but their quarters must be made very comfortable, and the mode of fastening such as will give them as much freedom of movement as possible, so that they will not get cramped from remaining in one position too long.
